General Information

- **Submission Deadline:** Sunday, 16 Nov 2025, 13:00 SAST
- **Submission Package:**
    - Presentation slides (solution overview, stats, security, impact, etc.)
    - Technical documentation (e.g., system architecture)
    - *No source code* unless requested
    - Max file size: **12MB**
- Participants must be **in a team**, managed via the **My Team** channel.

🧩 Main Challenges (Themes)

1. **Panic Button (GBV):** Addressing low awareness and access to GBV safety tech.
2. **SA Connect:** Tackling digital inequality and limited rural connectivity.
3. **Electricity Crisis:** Finding solutions for load shedding and energy awareness.
4. **Cybersecurity:** Promoting digital safety and awareness against cyber threats.

🎥 Creative Campaign Approaches

Each challenge involves media-based solutions:

Challenge	Possible Media Formats
GBV Panic Button	Short Film, Radio PSA, Cartoon/Comic Strip
SA Connect	Animated Explainer, Infographic, Radio Panel
Electricity Crisis	Documentary Short, Graphic Posters, TV PSA
Cybersecurity	Animated Mini-Series, Radio Skits, Interactive Art Exhibit

---

🎨 Student Involvement

- **Arts & Media Students:** Create visuals, animations, films, and design content.
- **Data Science Students:** Collect and analyse data for campaign impact and insights.

Data Science Focus Areas:

- Impact measurement (surveys, analytics)
- Mapping issues (GBV, energy, connectivity, cybercrime)
- Advisory reports for policy
- Real-time *data hackathon* during the event

📊 Data Sources per Challenge

Challenge	Example Data Sources
GBV Panic Button	SAPS Crime Stats, Stats SA, NGO reports, Gauteng Safety Dept.
SA Connect	DCDT Reports, ICASA, World Bank, Stats SA ICT Surveys
Electricity Crisis	Eskom, DMRE, CSIR Energy Data, SANEDI
Cybersecurity	CSIR, SABRIC, FPB, National Cybersecurity Hub

Goal: Use credible data to track trends, identify interventions, and guide policies.

🏆 Judging Criteria (10 points each)

1. **Innovation & Approach:** Creativity and originality of the solution.
2. **Best Use of Data:** Data credibility, analysis, and insights.
3. **Media Campaign Creativity:** Message effectiveness and audience engagement.
4. **UI/UX Design:** Consistent, attractive, and user-friendly interface.
5. **Security & Data Privacy:** Awareness and mitigation of user vulnerabilities.
6. **Business Presentation:** Market potential, clarity, and persuasiveness.

💼 Lean Business Canvas (Business Thinking)

Key Components to Include:

1. **Problem Statement:** Define the issue with data evidence.
2. **Solution:** Explain clearly what your solution does and how it works.
3. **Customer Segments:** Identify users vs. paying customers.
4. **Unique Value Proposition:** What makes it stand out.
5. **Distribution Channels:** How users will access or discover it.
6. **Growth Metrics:** KPIs (users, revenue, engagement).
7. **Unfair Advantage:** Why your team or solution is special.
8. **Cost Structure:** Budget breakdown.
9. **Revenue Streams:** How it will make money or sustain itself.
